An Employee Owned Company

STOCKING PROGRAM

Fargo Glass & Paint Entry Doors

Fargo Glass & Paint Company History

Fargo Glass and Paint Company Founder E.J. Schonberg was fond of calling his company “The Friendly House.” The son of Swedish immigrants, Schonberg founded the Fargo Plate Glass Company in 1917 with \$10,000 of borrowed money and absolutely no experience in the glass business.

With the notion that a company should be based on integrity, intelligence, and imagination, Schonberg’s “Friendly House” has grown into the largest business of its kind to be found between Minneapolis and Seattle.

Fargo Glass & Paint Company Today

Over the years, Fargo Glass and Paint Company has added new products and services to keep pace with an ever-changing marketplace. We are a distributor of glass, mirrors, paint, and paint sundries, window blinds, flooring items, cabinets, windows, doors, aluminum railing, house wraps, steel siding and roofing.

We continue to provide a full line of commercial and residential glass products and services from estimation to installation in all locations. Our experienced staff serves a diverse customer base which includes business owners, architects, general contractors, and homeowners with the products and services they need to get their projects completed. Glass related products and services consist of the sales and installation of glass, mirrors, custom shower doors, glass rails, automatic doors, commercial store fronts and high-rise curtainwalls.

Headquartered in Fargo, North Dakota, Fargo Glass and Paint Company has a Millwork branch in Sioux Falls, South Dakota and Contract Glazing branches in Bismarck and Minot, North Dakota and Sioux Falls, South Dakota to better serve customers in those areas. We also own and operate a Pro Desk in north Fargo along with a retail paint store in southwest Fargo..

We have long-term business relationships with some of the most trusted names in their respective industries. Fargo Glass and Paint Company has been a Benjamin Moore distributor since 1917.

With a staff of 175, Fargo Glass and Paint Company is dedicated to service. By operating our own fleet of trucks, our delivery is reliable and efficient. Our ongoing training programs help our customers become more knowledgeable about our products; which has allowed them to feel more confident when they are using our products or selling our products to their consumers. We’re here to help!

How We Go to Market

Distribution – We conduct our distribution business through a two-step model. This means we resell the products we purchase from vendors and manufacturers to our dealer network. These dealers then sell the products to the final end users who are typically DIY consumers, professional builders or independent contractors. This two-step model allows Fargo Glass and Paint Company to service our dealer network through value-added services such as custom color paint mixing, pre-hanging of doors and windows, and custom painting and staining of doors & windows.

Contract Glass – We can deliver everything from plan take-offs and estimation to custom fabrication in our shops to the professional installation of the products by our installation crews. We typically work directly with the end users who are general contractors, private sector owners, educational facilities, and city, state and federal government institutions.

Arima is the perfect choice for both 1960s bungalows as well as for classic style homes. This model fits particularly well in entrances with symmetrical composition - a look that can be easily achieved with carefully placed exterior light fixtures or with some well-chosen decorative objects.

FRONTLINE COMPOSITE DOOR FRAME

Innovative, new alternative to traditional wood door jambs.

- 20-Minute Fire Rating
- Closed Cellular Structure - Will not absorb moisture
- Rigid Poly-Fiber Formulation - No aluminum support channel needed
- 2X Screw Holding Power - Stronger than wood door frames
- Top-Notch Impact & Skin - More durable
- Cut-to-size - More size options
